- Efficient Infrastructure
- Clean Air & Water
- Housing Choices
- Transportation Choices
- Local Food Production
- Create Great Places
- Regional Prosperity
- Healthy People

Efficient Infrastructure

Building infrastructure extensions to serve low density sprawl and leapfrog development is not as efficient as developing near existing roads, sewers, and utilities.

To make the best use of our current investment and to keep operating and maintenance costs low, we must fully use our existing infrastructure.

This goal is not above the line.

- Introduction
- Regional Prosperity
- Clean Air & Water
- Create Great Places
- Local Food Production
- Healthy People
- Transportation Choices**
- Housing Choices
- Efficient Infrastructure

Indicate which three objectives you would support by choosing:

(Yes) or (No)

For each goal, you may also choose one favorite:

Favorite

Expand the options we have for moving around the region when an additional 300,000 people call East Tennessee home in 2040.

To expand transportation choices, we need to:

Provide options for people who don't drive

Make transportation options available and easy for those people who can't or don't want to drive.

Favorite

Enhance our existing transit system

Provide more frequent transit service with more destinations and better facilities.

Favorite

Expand our transit opportunities throughout the region

Create connected transit systems that reach communities throughout the region.

Favorite

Create more walking and biking opportunities

Create safe, convenient walking and biking options connected to transit and to places where we learn, work, play and shop.

Favorite

Encourage development that supports transit

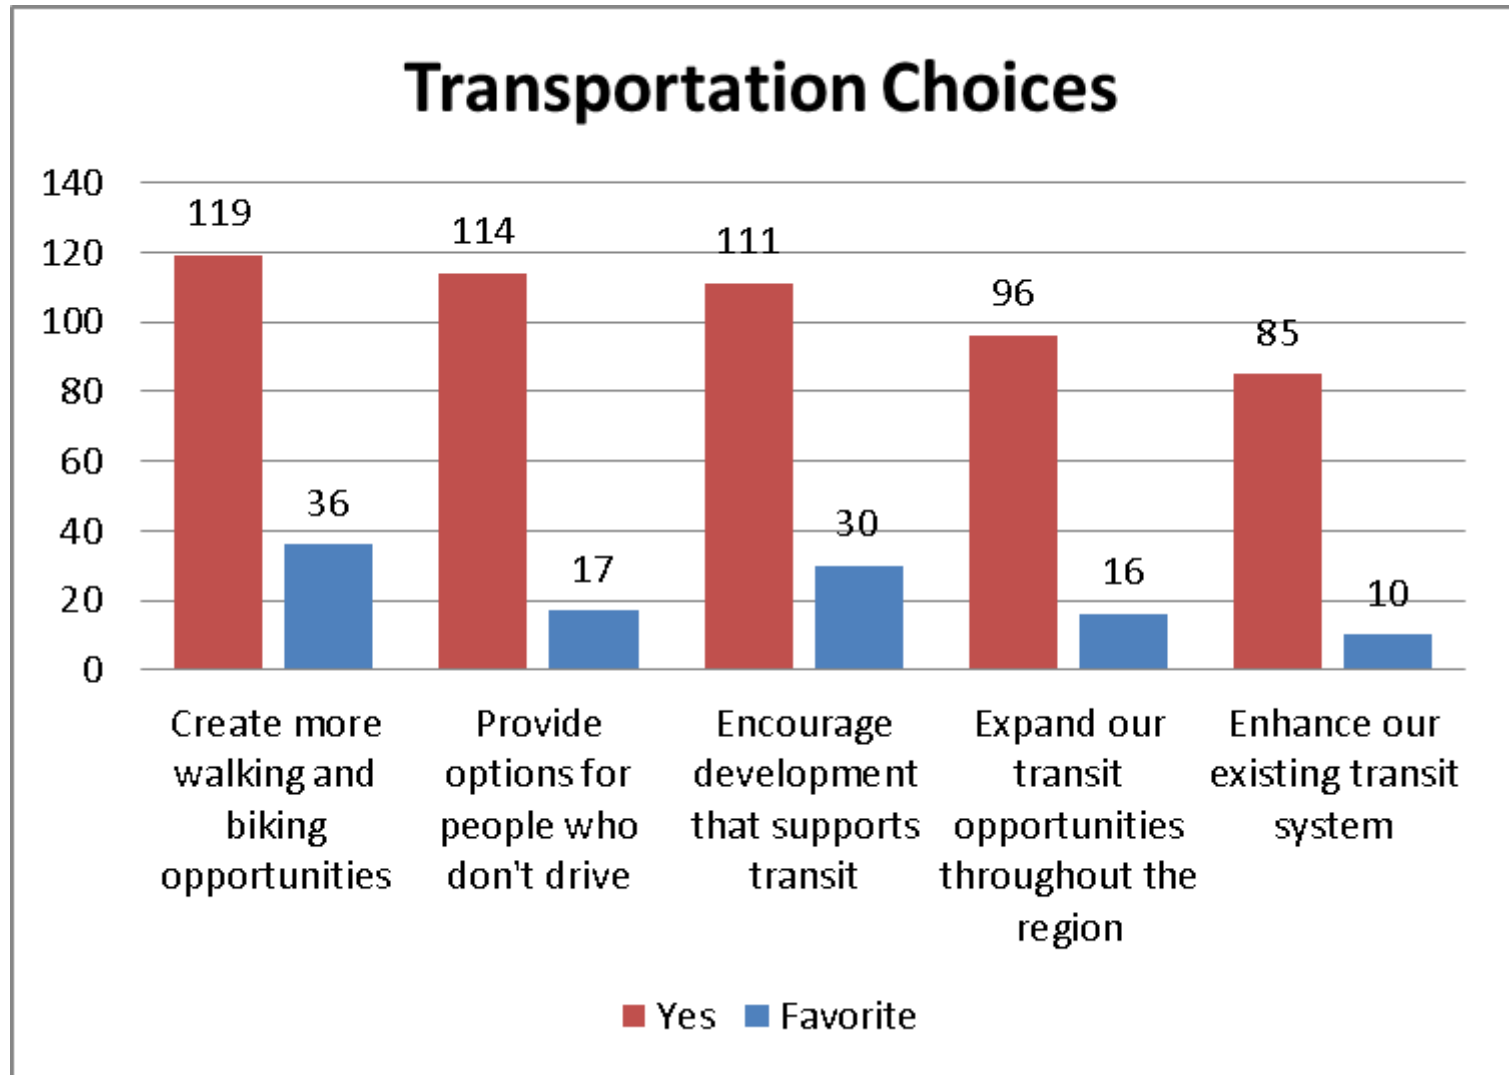

Support transit systems by encouraging the development of nearby places to live, work, learn, play and shop.

Goal 8: Maximize efficiency of existing infrastructure

- 17 1. Increase maintenance budgets
- 13 2. Conserve of water and energy
- 15 3. Extend infrastructure incrementally from the core facilities outward
- 6 4. Identify bottlenecks or choke points in our infrastructure systems
- 15 5. Jurisdictions will cooperate and coordinate
- 12 6. Discourage development on substandard infrastructure
- 10 7. Work with existing transportation infrastructure before building new
- 5 8. Tie infrastructure investment to transit investment

Indicate which three objectives you would support by choosing:

(Yes) or (No)

For each goal, you may also choose one favorite:

★ Favorite

Maximize the efficiency and value of our current infrastructure investment and keep operating and maintenance costs low.

To maximize existing infrastructure efficiency, we need to:

Adequately fund infrastructure maintenance

Fund the maintenance of roads, water lines, sewers and other infrastructure to maximize their lifecycle.

★ Favorite

Extend infrastructure incrementally

Avoid leapfrog extensions of infrastructure by extending systems in steps from the core facilities outward.

★ Favorite

Coordinate across jurisdictional boundaries

Share information and work together to provide support and backup in times of emergency or need.

★ Favorite

Conserve water and energy resources

Conserve water and energy to extend the life of our resources and avoid the cost of upgrading our systems.

★ Favorite

Avoid development that is not supported by infrastructure

Recognize that building with inadequate infrastructure is not safe and costs us more money in the long run.
