- Efficient Infrastructure
- Clean Air & Water
- Housing Choices
- Transportation Choices
- Local Food Production
- Create Great Places
- Regional Prosperity
- Healthy People

Efficient Infrastructure

Building infrastructure extensions to serve low density sprawl and leapfrog development is not as efficient as developing near existing roads, sewers, and utilities.

To make the best use of our current investment and to keep operating and maintenance costs low, we must fully use our existing infrastructure.

This goal is not above the line.

Changing demographics require more housing for an aging population and a rising generation of millennials less inclined to want large houses on large lots.

To enable a broader choice of housing, we need to:

Maintain and enhance a variety of housing locations

Provide housing in a variety of places such in cities, urban neighborhoods, suburbs and rural settings.

★ Favorite

Embrace a mix of new housing types

Support development that offers choices of housing types, values and settings.

★ Favorite

Support inclusive communities and neighborhoods

Make our neighborhoods stronger and more resilient by encouraging diversity in age, ethnicity and income.

★ Favorite

Create opportunities to live closer to work

Provide housing options to reduce transportation costs which frequently exceed the cost of housing.

★ Favorite

Enable housing diversity within existing neighborhoods

Strengthen existing neighborhoods through investments in a wider variety of compatible new housing.
